

ARIANA STEPANOVIC - Academic Student of the Month

Ariana is a grade 11 student from Stoney Creek, Ontario and was nominated by our teachers for her dedication to her studies this month. In the words of one of her teachers, "Ariana is a very dedicated student, prioritizing her academics...She always brings a ray of positivity to the classroom, inspiring others through her affability."

Ariana's favourite tennis player is Novak Djokovic, due to his personality on and off the court, as well as his inspiring story.

Ariana's favourite subject is English, and her short-term goal is to win a writing competition, for which she has been preparing. After Graduating, Ariana is aiming to gain a scholarship to a university in the United States, for both academics and athletics.

When asked what advice she would give to her peers, Ariana responded by stating, "Study a lot, focus hard in class, and always keep an open mind to learning"

Congratulations Ariana!
